Other Information

Meeting began at 4:00 P.M.

Meeting complete at 4:45 P.M.

Question #1 – Would you like and option to allow your child to take your child’s computer home daily (or on occasion) so your child could work on TUSD’s platforms from home?

P1-My stance is that on occasion I would be okay with the student taking the computer home, but wondering if this would be a requirement across the board...does not want this to be a school wide requirement especially for K-3 students.

P2- No, especially for my 2nd grade student. For my student going into MS yes, only if they needed to complete their course work.

Question #2 – Do you feel that you are receiving adequate updates on your child’s academic progress?

P1- Yes, I believe I am, I feel that my classroom teacher is informative and extremely responsive as all Drachman staff are.

P2-Yes, defiantly responsive for the 5th grader will hold conferences when needed or requested. 2nd – yes. 2nd grade teacher is available throughout the day when I have questions or concerns or that he had a wonderful day at school.

3. Question #3 – Are there any partnerships you can help build between Drachman and your workplace or your own connections that we can build with Drachman to support academic achievement? (i.e. guest speakers, field trips of your workplace, etc.)

P1- At this time no.

P2- None at this time.
